2. General objective

To ensure compliance with the requirements of Commission Implementing Decision (EU) 2018/1986 and Regulation (EU) 2016/1139 of the European Parliament and of the Council, by means of a coordinated programme of inspections of fishing vessels (FV) at sea and in ports of landing.

3. Summary

This report is covering the joint campaign activities in the BS JDP operational area for demersal species and for pelagic species. The report provides statistical information registered by the European Fisheries Control Agency (EFCA) concerning the joint control activities that were carried out by air, sea and shore-based assets and teams of the participating Member States (MS) from the BS JDP.

The numbers shown in this report have been extracted from the EFCA database according to the activity submitted by the MS within the context of the BS JDP. Only the data that met certain quality criteria was recorded in the EFCA database. This data is provisional and is kept under continuous review. The extraction of data was done on 4th May 2022, for the BS related events, patrols, and targets.

The COVID-19 measures have minimized the exchange of inspectors and the visits by MS experts to EFCA Coordination Centre (CC) due to special COVID sanitary measures of national authorities.

a) Inspections ashore

During this reporting period there were 884 inspections conducted ashore, including 14 transport inspections to trucks. The inspection teams reported in total 25 suspected infringements related to FV, no suspected infringements detected during transport.

b) Inspections at sea

During the reporting period there were 103 inspections carried out at sea with 1 suspected infringement reported.

c) Aircraft surveillance

In total, MS reported 177 air sightings with no suspected infringements detected during the surveillance flights carried out in this period.
