Address: Edificio Odriozola, Avenida García Barbón 4, E-36201 Vigo – Spain

Postal Address: EFCA - Apartado de Correos 771 - E-36200 Vigo – Spain

RESULTS

- 4 inspections: 1 EU vessel and 3 other Contracting Party vessels.
- 4 sightings.
- No infringements detected.

OBSERVATIONS

- OPV LUNDY SENTINEL left Vigo, Spain on 13th April and entered the NAFO RA on 19th April to carry out the first campaign of the year in the NAFO RA,.
- During the mission, the number of the EU vessels operating in the NAFO RA ranged from 4 to 7 and 5 to 7 fishing vessels operating from other Contracting Parties. The overall number of vessels fishing in the area during this mission varied from 9 to 14.
- The EU fishing vessels were present in Divisions 3LMNO of the NAFO RA, but mainly in the Divisions 3NO targeting RED and SKA.
- 4 RUS, 2 CAN, 1 JPN and 1 NOR vessels were operating in NAFO at the time of the campaign.
- Due to a specific situation in relation to COVID-19 outbreak, EFCA had established special safeguarding measures for EFCA staff and other personnel involved in the mission and followed those closely.
- Mission was disturbed by numerous low pressure systems, which mostly resulted with more than 30 knots wind speed and up to 7-8 m wind waves obstructing possibility to make inspections.
- No compliance issues with bottom fishing activities within the areas closed to bottom fisheries in the NAFO Regulatory Area and in the closed Southern MAR Areas in the NEAFC Regulatory Area were detected.
- During the mission, Lundy Sentinel was involved in one SAR operation, which began on 25th April and concluded on 26th April.
- CAN was patrolling in the area with 2 FPV-s: L. J. COWLEY and CYGNUS. Regular exchange of information with CAN colleagues ensured an excellent cooperation and efficient use of the patrol means.
- OPV LUNDY SENTINEL completed its mission in NAFO RA on 1st May and headed back to Vigo.
